

TRADE PASS ALLOCATION 2010

To decrease the number of vehicles on-site during show times, and therefore diminish the chances of an accident occurring, we have implemented the following rules.

ON-SITE VEHICLE PASSES

The on-site passes should be used only by those vehicles bringing/carrying stock and equipment to the stand. They can also be used by staff manning the stand, but please be aware that no **further on-site vehicle passes will be issued.**

The 9 – 5 rule is in operation. Any vehicle that tries to enter the show site after 9am and before 5pm on show days will not be granted access - whether or not they have an on-site vehicle pass. Please keep this in mind when deciding on travel arrangements to the show. **NO EXCEPTIONS**

In the past certain exhibitors have ignored the wishes of our marshals and continued to enter the site in a dangerous manor, this will no longer be tolerated and action will be taken against those who ignore the on-site traffic rules – which WILL result in them being asked to leave the site permanently. The Marshals do an important and invaluable job and do not need to be abused.

Please see below for the amounts of passes that you should have been issued. (The numbers given are per plot)
